

學雜費調整理由、計算方法

The rationale and formula of adjusting tuition fee

今年沒有調整學雜費

CCT does not adjust tuition fee this year.

註：

- ①. 當物價指數、教學成本、教學資源、或營運成本增加時，為學校的永續經營的學雜費而有常態調整機制。

When the consumer price index, teaching cost, teaching resources, or school operating cost increases, for school sustainable development, so that school has normal adjusting tuition mechanism.

- ②. 教學成本計算以教學研究與訓輔支出、獎學金支出、行政管理支出為主。

Teaching cost is sum of teaching research and counseling expense, scholarship expense, and administrative management expense.

- ③. 教育部提供可調整的指標：前一年的經濟成長率超過 3%，與獎助學金占支出比例超過 3%

MOE provide indicators that school may adjust tuition: the previous year's economic growth rate above 3%, the previous years' scholarship expense over 3% of school all expense.
